PROFESSIONAL SUMMARY

Aspiring computer science researcher passionate about Machine Learning and Deep Learning. Strong foundation in ML theory and hands-on experience building neural networks and image classification models. Eager to explore advanced ML concepts and contribute to innovative research in AI and data-driven solutions.

SKILLS

Machine Learning & AI , Mathematical Foundations for AI and ML , Cybersecurity , Deep Learning , Python C , MySQL , PostgreSQL

WORK EXPERIENCE

Python Developer Intern

Infotact Solutions

- Developed a currency converter with real-time exchange rate tracking.
- Built a text editor with data storage and password generation features.

Cybersecurity Intern

TechbyHeart

- Gained hands-on experience with virtual machines, Linux, Kali Linux.
- Learned ethical hacking techniques including social engineering, XSS, session hijacking, CCTV hacking, WiFi and Android hacking, SQL injection, and firewalls.

ACADEMIC HISTORY

Mar Baselious College of Engineering, Trivandrum

Bachelor of Technology in Computer Science with Artificial Intelligence

- Pursuing, 2nd Year
- Current CGPA: 8.61

Kendriya Vidyalaya, Pattom

Senior Secondary School (Class 12), Science Stream

- Graduated: 2023 (CBSE)
- Scored 85%

CERTIFICATION

Python for Data Science & Machine Learning: Zero to Hero

Meta Brains (Udemy)

Learn Ethical Hacking From Scratch

Z-Security(Udemy)

Java Programming 2022

Infosys Springboard

Python Fundamentals

Infosys Springboard
